**POLTRONA FRAU THE LOUVRE ABU DHABI FURNITURE COLLECTION**

Poltrona Frau Contract présente la collection conçue par Jean Nouvel pour le musée du Louvre Abu Dhabi qui sera inauguré à la fin de l'année. Ces meubles aux formes massives et sinueuses ont été développés par la division contract de Poltrona Frau.

This collection is an architect-driven concept of long dimension architectural, which expresses equally in the six new colors specially conceived. It is a departure from Bolon's typically designer-driven flooring, this architectural edition was conceived with spatiality in mind. The result is a flooring with a textural, hand-woven effect created of woven vinyl in combinations of black, grey, red and blue.

Poltrona Frau Contract presents the collection designed by Jean Nouvel for the new Louvre Abu Dhabi museum, which will be inaugurated at the end of this year. These sinuous, solid-looking pieces were developed by the Poltrona Frau Contract Division.

The collection is composed of benches and leather seats, inspired by the harmonious lines of the profile of the Louvre building in Saadiyat Island, and which visitors will use during their visit to the museum.

**BOLON BY JEAN NOUVEL**

Initiée il y a plusieurs années à travers la collaboration Bolon Architect Friend, l'histoire entre Bolon et Jean Nouvel se prolonge avec le lancement de Bolon by Jean Nouvel Design.

Initiated several years ago, through the collaboration Bolon Architect Friend, the story between Bolon and Jean Nouvel continues with the launch of Bolon by Jean Nouvel Design.

This collection is an architect-driven flooring concept comprised of six color signatures.

A departure from Bolon's typically designer-driven flooring, this architectural edition was conceived with spatiality in mind. The result is a flooring with a textural, hand-woven effect created of woven vinyl in combinations of black, grey, red and blue.

**UNIFOR**

Nous sommes heureux de vous annoncer que la collection d'assises « Elémentaires » sera désormais éditée par Unifor prolongeant la collaboration de longue date avec Jean Nouvel.

We are pleased to announce that the seating collection «Elémentaires» will now be edited by Unifor prolonging the long-standing collaboration with Jean Nouvel.

Salone del mobile : Hall 22 Stand E20-E23

**CITCO**

Citco présente « 286 Millions d'années » une pièce unique réalisée en Onyx rouge, annonciatrice d'une collection à venir avec Jean Nouvel.

Citco presents «286 Million years» a unique piece made in red Onyx, announcing a collection to come with Jean Nouvel.

The cutting of the marble produces a three-dimensional effect: the carpets are set into a grid like mechanical maps, inserted like jewels, polished like precious stones. All the know-how of Citco combining precision machinery and craftsmanship are used to reconstruct, reassemble the cut of this marble so long forgotten and which become an object of contemplation and veneration...

Salone del mobile : Hall 20 Stand E09

**ROCHE BOBOIS**

Roche Bobois présente LI-DA et LI-DO, une table et un buffet colonne laqués réalisés en Daquacryl, dont les formes sculptent et reflètent l'espace qui les entoure.

Roche Bobois presents LI-DA and LI-DO, a table and a buffet lacquered with Daquacryl, whose shapes sculpt and reflect the space that surrounds them.

"In my eyes, the Chinese-inspired round table with the turning top symbolises the abundance and discovery of the Chinese cuisine, which never ceases to renew itself. During my travels to China, I've always been surprised to see that these festive and ceremonial tables have no stylistic characteristics. They're just a plate of glass or marble, placed on a rotating mechanism in the center. There's nothing festive, magical or exceptional about them. So, I explored the idea of using a two-tone lacquered table, with a rotating part that would be more colourful. A thin top on a thick base." Jean Nouvel
